Our Mission

Our Mission is to offer a safe and fun enrichment program where kids are active, learn essential life skills, and build a sense of community using afterschool as our teaching arena. Our afterschool programs are built on the foundation of our CREW Values:

Character Teaching our kids moral and ethical values. Teachers mentor and serve as positive role models.

Respect Respect yourself, your peers, your teachers, and your school.

Empower Give kids a voice and ownership of their afterschool experience.

Wonder Have a great attitude and try new things. Have an open mind and look for ways to improve.

DAILY ACTIVITIES

SNACK AND ROLL CALL

CDC takes attendance and provides a healthy, allergen free snack every day. Please disclose all allergies and specific diet preferences of your child upon enrollment.

MINDFUL TIME

Students receive half an hour each day of Mindful Time to complete homework or have a quiet time to journal, read or draw. We aim to help students create positive study habits and provide time to unwind after the school day.

OUTSIDE TIME

Time outside to run and play is a focal point of our afterschool day. Teachers actively supervise free play and facilitate games that emphasize teamwork and sportsmanship.

CLUBS

Our teachers lead engaging activities that allow students to both explore new talents and build on known skills.

STUDENT LEAD PRODUCTIONS

Our teachers lead engaging activities that allow students to both explore new talents and build on known skills.
